

Experience the green power of China from the 19th till 29th of October 2025

17 company visits

Maximum 25 fellow explorers

3 cities

MISSION

Empower the Green Future

Experience China's cutting-edge
leadership in clean tech, AI
technology, humanoid robotics and
renewable energy - witness the future
of global innovation at its most
dynamic frontier

Experience the revolution

DISCOVER

The destinations

Beijing

The capital.
The center of
power and
artificial
intelligence.

Guangzhou

Traded with
Rome 2,000
years ago. Still
one of China's
most important
trading hubs.

Shenzhen

Silicon valley of
China.
Tech metropolis
with a robust
supply chain,
adjacent to
Hong Kong.

Bridging European and Chinese business
cultures through strategic partnerships

Day 1 Departure
October 19th

Brussels - Beijing

Gathering **10:00 AM**

Departure **1:20 PM**

The political & AI Epicenter

Beijing

22 million people

China's capital and center of governance,
culture, and cutting-edge artificial intelligence.

Home to historic landmarks and the engines of
national policy.

Visit Lenovo, Goldwind, Pony.AI and
China Water.

The strategic **heart** of power,
progress, and ideas

Day 1 Beijing

October 20th

Bank of China

¥

Financing the green revolution

Bank of China actively supports green finance and environmental investments with their BOC Green+ global brand. The oldest Chinese bank with most international presence

中國銀行

BANK OF CHINA

Day 2 Beijing

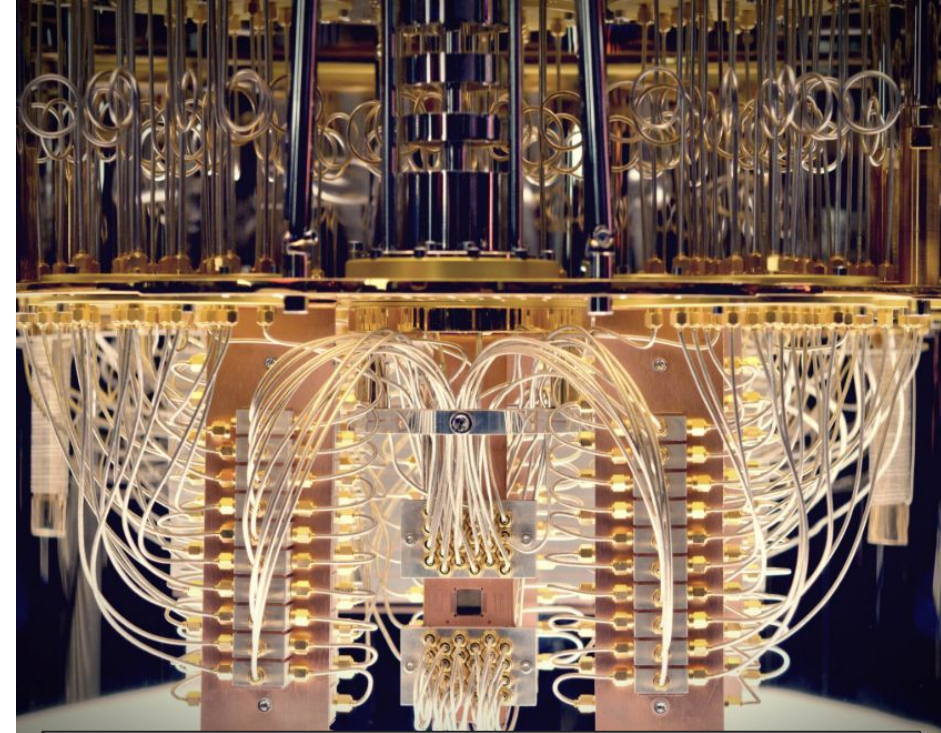

October 21th

Beijing Academy of Quantum Information Sciences

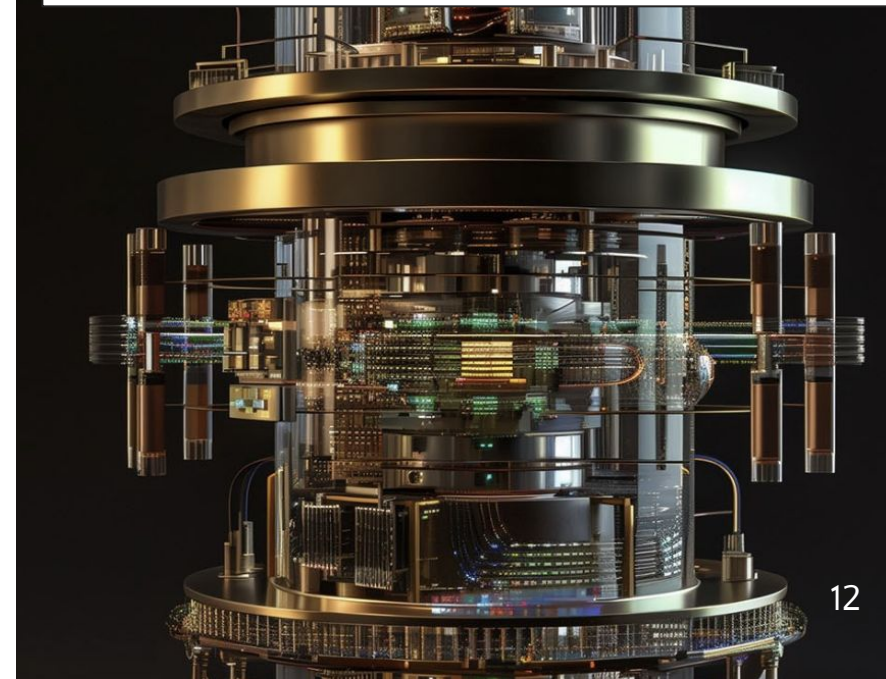

Enabling breakthroughs in
quantum chemistry,
cryptography and AI

China is leading in Quantum
technology with Quantum computers
Jiuzhang-3 and Zuchingzhi-3 with
respectively 105 qubits and 255
photons.

北京量子信息科学研究院
Beijing Academy of Quantum Information Sciences

Day 2 Beijing

October 21th

China National Nuclear Corporation

One stop nuclear power
technology provider

The top contractor of global nuclear
engineering projects in China.

The dominating investor of domestic
nuclear power plants in operation and
under construction.

X-humanoid

National and Local Co-built Embodied Artificial Intelligence Robotics Innovation Center

In april 2025, robots ran alongside humans at the Yizhuang half marathon in Beijing. Innovation that reached all news channels of the world.

Partner

Shareholder Units

Day 4 Beijing

October 23th

JA Solar

Powering the world with clean,
efficient solar technology

Visit JA Solar to explore cutting-edge
solar technologies, discover new PV
materials and carbon free power
plants

JA SOLAR

Day 4 Beijing

October 23th

Goldwind

Capturing the wind
energy

Goldwind is a top 3 global producer of smart wind turbines and energy storage systems. Goldwind Capital has financed green energy project for more than 9.8 billion RMB.

Day 5 Beijing

October 24th

Match making **Conference** by

China - Europe New Energy Promotion Conference

Xicheng District, Beijing Government
With more than hundreds Chinese companies

Day 6 Beijing

October 25th

Hydrogen centre

Decarbonize industry

The international Hydrogen Energy Centre (IHEC) is endorsed by the UN. It demonstrates the use of hydrogen for commercial and logistic vehicles and the use of hydrogen in the metallurgical & chemical industry.

IHEC

国 | 际 | 氢 | 能 | 中 | 心

Day 6 Beijing

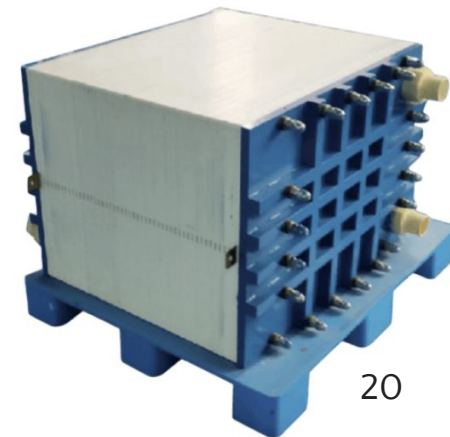

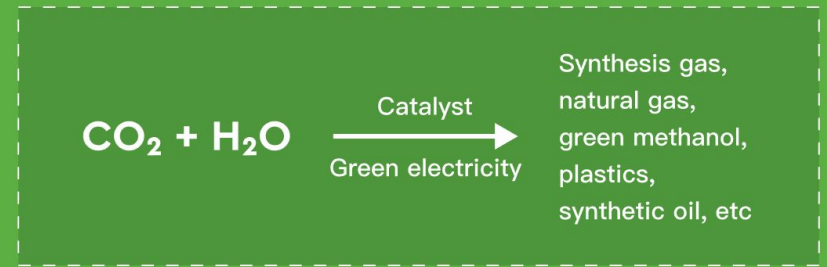

October 25th

Carbon Energy Smart Center

The Bell Lab of smart energy

Through key catalysts, reactors and advanced process, Carbon Energy efficiently converts CO₂ to green chemicals and materials, such as synthesis gas, synthetic oil and methanol, contributing to a “net-zero” future.

Canton city

Guangzhou

18,8 million people

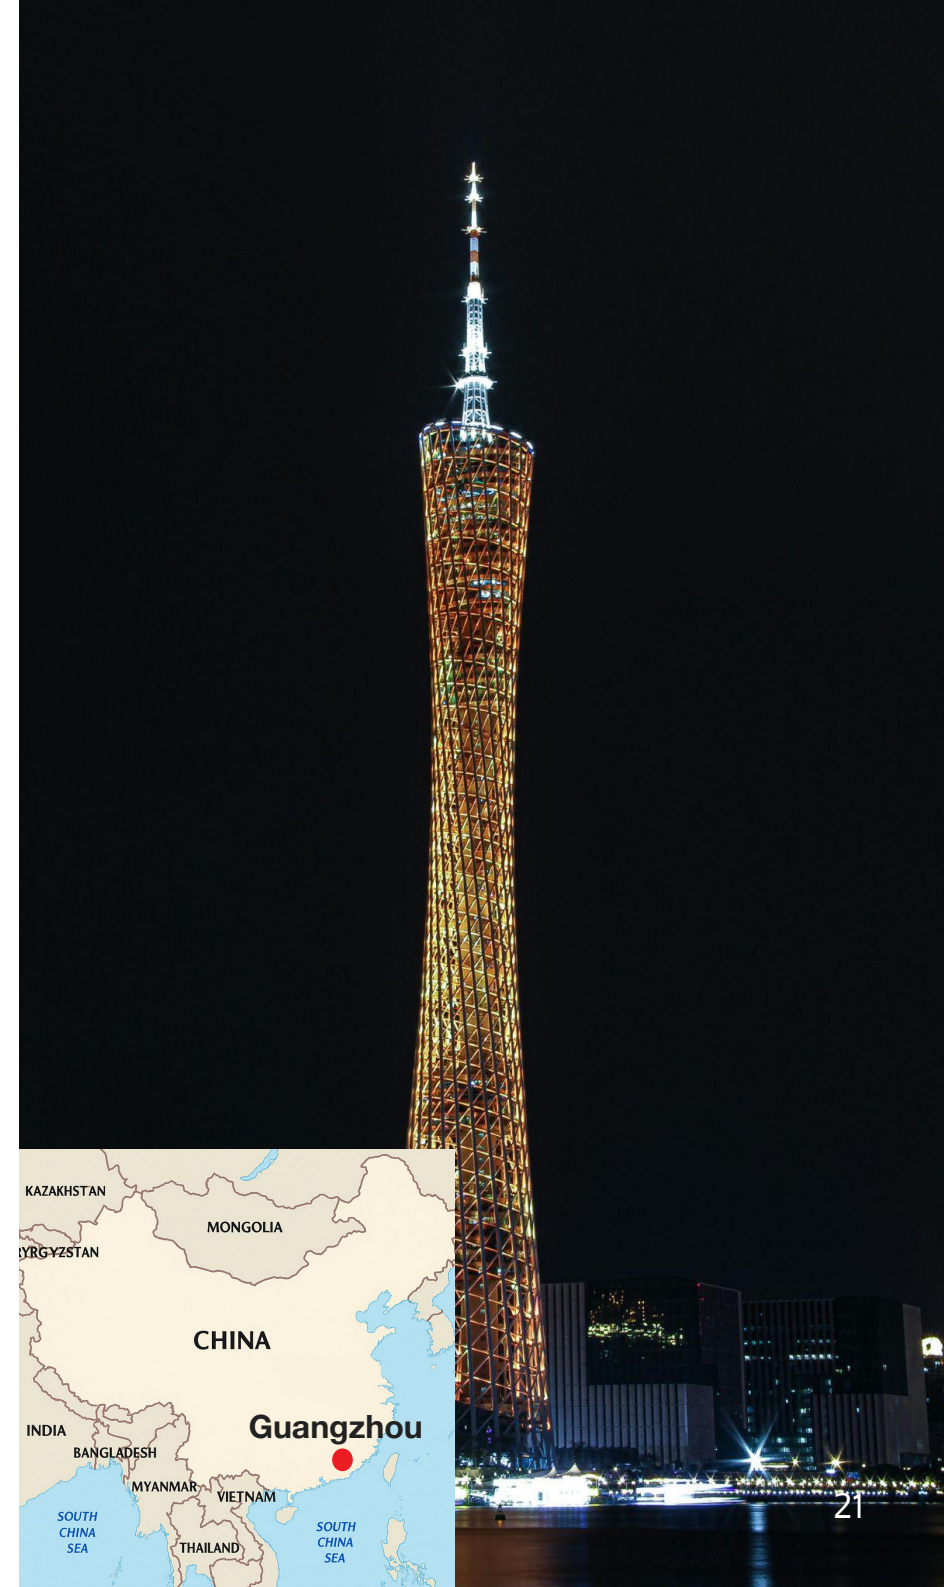

Southern China's historic trading hub

The biggest port of Southern China

GDP of 396 billion Euro

Visits to CATL, Weride, and Xpeng

The **Paradise** of Chinese food

Day 7 Guangzhou

October 26th

CATL

**Where the world's batteries
are born**

We'll discover the latest battery technologies and energy storage solutions like sodium ion batteries. CATL powers the future of electric mobility.

CATL 宁德时代

Day 7 Guangzhou

October 26th

Xpeng

From road to sky, elevating
green mobility to new
heights

Witness the future of mobility. From
intelligent EVs to flying cars
(eVTOLs). XPeng redefines what
smart sustainable transport looks
like.

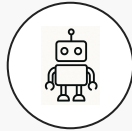

Day 7 Guangzhou

October 26th

XAG

The world's largest agricultural drone provider

XAG is a global pioneer in smart agriculture, revolutionizing farming with cutting-edge quadricopters, unmanned ground vehicles, robotics, and AI. Trusted by over a million farmers in 60+ countries.

The Next-Level Efficiency

XAG P150 Agricultural Drone

XAG

Canton city

Shenzhen

17,7 million people

Bustling Chinese tech metropolis

Smart manufacturing center

410 billion Euro GDP

Visits to BYD, Honor, UBTECH,

The **fastest** developing city in
China

Day 8 Shenzhen

October 27th

BYD

The largest EV manufacturer
in the world

BYD combines mastery in vertical
integration and global expansion.
Discover why their state of the art
luxury brand Denza.

Day 8 Shenzhen

October 27th

Honor

Premium smartphones,
tablets and laptops

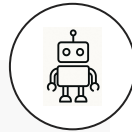

Discover how Honor transformed
from the low cost phone brand of
Huawei to an independent
smartphone innovator that challenges
Apple and Samsung.

Day 9 Shenzhen

October 28th

UBTech Robotics

Humanoids & Smart Service Robots

UBTECH Robotics is a global leader in AI-powered humanoid robots, creating smart services, educational, and consumer robots that enhance daily life, learning and future industries

Day 9 Shenzhen

October 28th

Tencent

China's Tech Powerhouse

Tencent dominates social media, gaming, and digital payments. We discover how one ecosystem connects over a billion users through WeChat. The “everything app”.

Tencent 腾讯

Day 10 Shenzhen

October 29th

Shenzhen - Brussels

Departure **1:30 AM**

Arrival **05:00 AM**

How participants experienced our visit in september 2024

Did I learn more about China? Absolutely! Did the trip meet my expectations? Much more than that. Was I surprised by what China has to offer? I surely was: entrepreneurship, innovation, speed of execution, ... Did I meet new friends? Many, starting with all of you but also the Chinese team. Was the trip well organised? Euh, is the Pope Catholic? Of course, it was perfect.

Thank you Jun for bringing all these experiences to us. Thank you Rudy for leading us with your usual flair, insights and humour. Thank you Xander for the support. Thank you all for your enthusiasm, inputs and the many Gan Bei's.

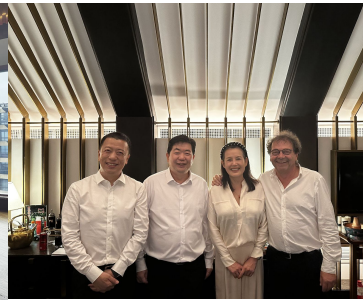

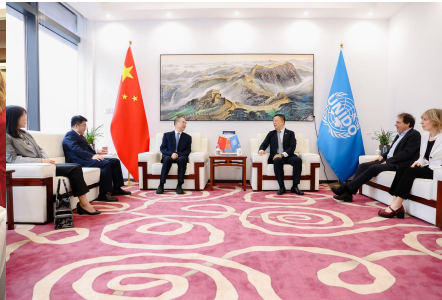

When I decided to join the trip, I was not sure if I would learn enough from it. Now, I am struggling to summarise all the findings and memories. What a wonderful country it is.

Guy Louis

Executive Partner at Ventures4Growth
